

Clash Detection & Creating Clash Report in Navisorks:

- Open/append the following files:
 - Stadium-Arch. nwd
 - Stadium-electrical. nwd
 - Stadium- Mech-Ducts.nwd
- Save your file as 03-stadium-yourlastname.nwf
- Identify 3 clusters of clashes that could be resolved together, group the related clashed under each cluster, change their status to active and assign them to responsible parties to resolve them. Create a report that included the 3 identified groups of clashes with a clear viewpoints that shows the issue.
- Name the report 03-clash-report-yourlastname.html.
- Submit the two nwf and html file along with the folder that contains your viewpoints
